Ice Rescue boat

RTB

Quickly ready to use, operated by only one person: the versatile LANCO lifeboat serves as a safe work and rescue base in difficult situations.

A fundamentally different design makes LANCO's ice rescue boat the best fast response inflatable rescue craft available.

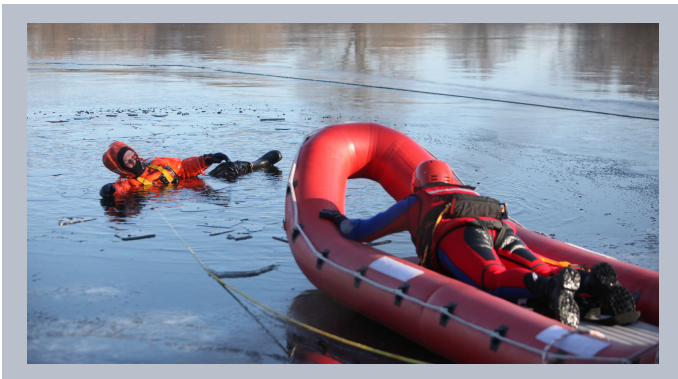

It provides a protective perimeter enabling rescuers to quickly reach and safely retrieve a victim.

 Safe work and rescue base

 Suitable for ice rescue operations

 Ready for use quickly - one person handling

 The improved filling system guarantees a fast set-up time

Inflation

Inflation possible by: compressed air, 1 bottle (6 liters/300 bar) or electric blower.

Fabric

PVC coated polyester fabric.

Scope of Supply

Ice rescue boat, packing bag, hand pump, repair kit.

Compressed air inflation

The improved filling system guarantees a quick set-up time. One filling hose with three adapters is connected via quick coupling to the compressed air cylinder with pressure reducer. Three air chambers are inflated at the same time. The new filling hose can be ordered as a spare part for existing ice rescue boats.

Specifications:

Length	4.67 m
Width	1.12 m
Tube diameter	0.30 m
Floor length	2.44 m
Buoyancy	→ 900+ kg
Weight	ca. 25 kg
Packing size	ca. 70x70x40 cm (without paddles)
Fabric	PVC coated polyester fabric
Inflation	Compressed air cylinder / electric blower

Packing Size

Boat	ca. 70x70x40 cm
Paddles	120 x 20 x 5 cm
Adapter kit (optional)	50 x 41 x 12 cm

Accessories:

Packing bag
2 paddles, divisible
Compressed air kit (optional)
Cylinder 6 l / 300 bar (optional)
Electric blower (optional)
Lettering (optional)
