Folding rescue tents

FRZ PRO

Within five minutes the FRZ is erected and fully assembled with side walls and floor, as well as anchored to the ground.

We have been working for 70 years with first responders, fire brigades, emergency rescue teams – we know what matters. When time is of essence and resources are scarce, simple logistics is paramount. Only two people are required for the complete assembly and erection.

Complexing capabilities

Waterproof and flame retardant fabrics

Quick and easy assembly and disassembly

Substantial time saved on subsequent deployments

LANCO folding rescue tent provide you with reliable support every day in your important tasks – developed and manufactured to the highest standards of quality and functionality. The FRZ tent can be configured to suit particular requirements; any number of FRZ foldable tents can be joined together using PU sealing strips and tent connection clamps.

Tent Skin

All fabrics used are flame-retardant, waterproof and rot-resistant. The roof is made of one-sided PU-coated polyester fabric 550 dtex (240 g/m²). The mud flaps are made of two-side PVC-coated polyester fabric, are easy to clean, impervious and can be used for ballasting the tent.

Frame

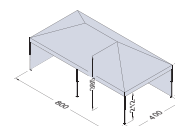

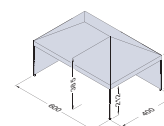

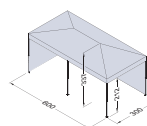

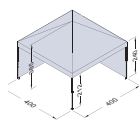

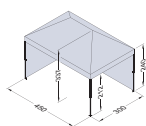

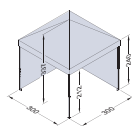

The frame system is made of fully anodized aluminum rectangular tubes with aluminum connectors for less wear, long service life and high structural strength.

Advantages

- ▲ Functional and easy to operate
- ▲ Simple to no maintenance required
- ▲ Quick and easy assembly and disassembly
- ▲ Simple erection - no special tools required
- ▲ High tear strength and resistance to wind forces
