

Power Generators for Emergency Response Units

Product Images

Short Description

Power Generators for Emergency Response Units, Civil Defence, Police, the Military, NGOs or relief organizations

Description

When every second counts - CLADIS power generators are the safe and robust energy sources for use by fire brigades, disaster control units and emergency response services. Comprehensive functions, safe and simple operation for all users and all conditions.

Additional Information

Socket	shockproof 3 x 230V 16A1xCEE 400V 16A
Continuous power	3 ~ 6.0/4.8 kVA/kW 1 ~ 4.0/3.6 kVA/kW
Height	580 mm
IP class	IP 54
Length	700 mm
Width	440 mm
Application area	Civil Defence, Triage, Field Hospitals, First Aid Posts, Military, Decontamination and Hazardous Goods Operations, Accommodation and Catering, Police/Gendarmerie
Sound level	97 db(A)
Starting system	recoil starter
Alternator type	duplex
Displacement	389 ccm
Engine type	HONDA GX390 / 11 HP
Frequency	50 Hz
Fuel	petrol
Fuel consumption	2.1 l/h @ 75% PRP
Fuel tank capacity	6,5 l
Nominal current	8.7/17.4 A
Nominal voltage	400/230 V
Output 3000	6,4 rpm
Power factor cos	0,8 phi
Running time	3.1 h @75%PRP
Weight	0.000000
