### Description

---

Optimal storage and transportation boxes made of aluminum. Our high-quality aluminum cases are weather-resistant, stackable, easy to clean and lightweight.

Sturdy aluminium universal box fitted with two sturdy lid holding straps and fastener for ergonomic operation and an extremely long service life.

- The handles ensure ergonomic handling and loads of up to 50 kg.
- Solid workmanship for a long service life and the highest stacking and carrying loads with low dead weight.
- Matched to pallet dimensions according to DIN 15141.
- Profile-section joints fully welded.
- High degree of resistance to corrosion thanks to stainless steel fittings.
- Corner beads for additional dimensional stability.
- Lid and base profile frames made of fully welded aluminium sections for high stability.

- Snap fasteners: can be secured with a plug lock, lead seals, protection against bursting open or a padlock (max. shackle thickness 6 mm).
- Impact-resistant stacking corners ensure safe stacking.
