

Preliminary and Intermediate Filter G3 (EU3) - for G100

Product Images

Short Description

Filter for the pre-filtration in ventilation systems and devices of all kinds up to fine dust filtration.

Description

Method of use:

For the pre-filtration in ventilation systems and devices of all kinds up to fine dust filtration.

Technical data:

- Frame: Cardboard frame, 47 mm wide
- Filter medium: Glass wool
- Moisture resistance: 100 % RH
- Temperature resistance: 100 °C

As additional protection, a fleece filter can be delivered on a roll (thickness 21mm, width 610mm, length 30m) in the quality classification G3.

Additional Information

Length	305 mm
Width	47 mm
Height	305 mm
Nominal volume flow	5400 m ³ /h/m ²
Nominal blow speed by nominal volume	1,5 m/s
Starting pressure difference	30 Pa
Recommended final pressure difference	450 Pa
