

## Clippy Floor Plates

### Product Images

---

### Short Description

---

Due to its perforation of approx. 19 mm, Clippy® Classic is mainly used where good water drainage must be ensured.

### Description

---

Due to its perforation of approx. 19 mm, Clippy® Classic is mainly used where good water drainage must be ensured.

A slight corrugation on the surface provides anti-slip properties. Clippy® Classic, like Clippy® Stabil and Clippy® Country, is resistant to many chemicals and is highly durable.

- flammability: Class B2 (DIN 4102)
- warm and dry underfoot
- anti-slip
- pressure resistant
- perfect water drainage
- hygienic and elastic
- prevents fatigue
- easy to lay down and take out
- can be cut to any intermediate size
- can be interconnected
- can be used wherever clean, mobile floors have to be laid in the shortest possible time
- is clipped together and can be quickly dismantled and stacked
- is hygienic and easy to clean

- increases safety with electrical installations
