Folding Bed, Wood frame, 195 cm

Product Images

Short Description

The folding field bed is a rugged, durable cot, manufactured to industry specifications. The bed comes in a protective bag, made from the same material. It secures and protects the bed no matter where it is stored.

Description

LANCO's folding beds are built and outfitted with fabric designed for the demands of military and emergency use.

WOOD FRAME

Compact and resilient, our folding bed beech wood frame is ideal for any type of deployment. Its durable construction and space-saving design ensure reliable comfort and easy transport. Furthermore, the lightweight and foldable design of the bed ensures effortless packing and storage.

FABRIC

CLADIS's wood frame folding beds are outfitted with LANCO heavy-duty fabric which provides a multitude of benefits that ensure user comfort and longevity.
The fabric's permeability allows air to circulate freely, preventing heat build-up and promoting a comfortable sleeping experience. Treated to resist mould and mildew growth, the fabric remains functional even in humid environments.
The 50/50 blend of twisted cotton and polyester offers a perfect balance between comfort and durability, ensuring the fabric performs well for extended periods.
