Multi Purpose Aluminum Frame Tents - SG 301

Product Images

Short Description

SG tents come in 14 standard configurations and offer 10 different areas of application. No special tools are required for setup; they are modular and easy to interconnect.

Description

Standard

Tent with an aluminium frame and accessories. The tent skin is made from LANCO heavy-duty fabric. It features entrances in both the front and back gables. The detachable and divisible gables allow for versatility in setup. Walls can be rolled up to the eaves for ventilation. Four windows measuring 60 x 40 cm are included, with exterior shutters on panels 2 and 3. The tent comes with a bag for the tent itself, an accessory bag, and a bag for the frame.

Frame

The frame system consists of anodized aluminium tubes, 40 mm in diameter. The connectors and base plates are made of an aluminium alloy. All poles are 1.94 metres in length.

- Wall thickness of 1.5 mm of the material AL Mg 4,5 Mn
- Yield strength: $R_{p0,2}$ = 330-340 N/mm^2
- Ultimate strength: R_m = 350-370 N/mm^2
- Peg, 20 mm diameter, hot-dip galvanised iron with top forged on, 0.70 kg, 300 mm long
- T-peg, galvanised iron, 300 mm long
- Peg with hook, galvanised steel, 300 mm long

Tent skin

LANCO tents use LANCO heavy-duty fabric, a 50/50 twisted cotton-polyester yarn blend. This fabric is breathable, rot-proof, waterproof, and highly tear-resistant. It also offers excellent protection against UV rays.
